Thanks Joe. Mike and George, if all goes as expected I will reach out next week with a few contacts. If there is an emergency we can draw people back into the office to address it.

We have many contracts that are funded, and PRPs can work if they have specific direction, so certain on-site activities at NPL sites will continue.

Hi Mike. Tonawanda will remain active if there is a shutdown as will Covidien in Oriskany Falls and Orchard Street in Newburgh. Covidien is an asbestos job and Orchard Street is a residential soil cleanup.

Let me know if you need any additional information.

Have a Happy New Year.
Joe

Joe - I understand that EPA will begin furloughing employees at midnight tonight. Can you advise how this will impact the ongoing removal actions? Will your contractor's be staying on (e.g., Tonawanda Coke)?

Can you advise which, if any, removal actions will remain active during the shutdown?

Thanks.

Mike
